Engine Guard / Crash Bar

[Click Here](#) for downloadable instruction sheets for Engine Guards in the Sportsterpedia.

1982-2003 Engine Guard

The same type construction engine guard is used on 1982-2003 Sportsters.

However, there are 2 different size lower brackets that have to be considered for installation depending on year model used.

1982-E1984 (generator motors) used a lower bracket (49014-85) that is shorter than L1984-2003 models (alternator motors) lower bracket (49014-86A).
