XL 883 BUCKHORN HANDLEBAR CONVERSION

It has come to our attention that when converting XL 883's to buckhorn handlebars, the hand control switch wires are occasionally too short to allow proper positioning of the hand control switches on the higher buckhorn handlebar. The following list of switch assemblies are long enough to accommodate buckhorn handlebars.

1986 XL 883

70218-86A	Switch Assembly Left
70219-86A	Switch Assembly Right

(The above switch assemblies have ratchet type, stay on, turn signal switches.)

1987 AND 1988 XL 883

70218-87	Switch Assembly Left
70219-87	Switch Assembly Right

Thank you

XLH 883 Buckhorn Handlebar Conversion

In the recent past, many dealers have requested information concerning the necessary parts to convert the XLH 883 handlebars to the XLH 1100 Buckhorn Handlebars.

The following is a complete list, along with the necessary quantities to make this conversion.

Part Number	Description	Quantity
56081-82	Buckhorn Handlebar	1
45121-84	Brake Hose	1
45583-83	Washer, Upper Banjo Fitting	2
41731-82	Washer, Lower Banjo Fitting	2
38621-86A	Clutch Cable	1
34955-75	Gasket, Chain Cover	1
34624-77	Gasket, Chain Cover Stud	1
37101-84	Shifter Shaft Seal	1
72502-74	Right Angle Bushing	2
56073-83	Retainer, Wiring Harness	4
56206-81A	Hand Grip, Left	1

Insist on Genuine Harley-Davidson Parts.
