PAB # 390

XL-1200 SCREAMIN EAGLE® PISTON KIT PART NO. 16140-87

We were recently notified by a member of the Harley-Davidson dealer network, that an XL-1200 Screamin Eagle®Piston Kit (P/N 16140-87) erroneously contained 1340 Evolution® pistons. Packaging date was 6/88.

All inventory in the Harley-Davidson parts and accessories warehouse has been inspected and found to contain the correct XL pistons.

We are confident that this was an extremely isolated incident. However, if you have any of these kits in your dealer inventory, please verify that the pistons contained therein are correct. Pistons can be identified by the following part numbers that are stamped on the top: XL 1200 is 22650-88, 1340 Evolution is 22091-83B. Any kits with incorrect pistons must be returned on an E Form for credit and another order for stock must be placed.

Any questions, please contact your Parts & Accessories Account Representative.

We apologize for any inconvenience this may have caused.
