## Recommended Harley-Davidson Dealership Inventory of Service Parts for 1995 FLHTCU-I Models

Harley-Davidson recommends that U.S. dealers stock the following new service parts for use on 1995 FLHTCU-I 30th Anniversary Edition Ultra Classic Electra Glide models. We have compiled this list as a guide to our dealers in the selection of "essential" maintenance and repair parts specific to 1995 FLHTCU-I models (note that the oil filter adapter 26352-95 and the camshaft position/vehicle attitude sensor 32448-95A are already in use on other 1995 models). Please determine your particular service part requirements, and then contact your H-D sales account representative for details on parts availability and ordering. Note that the "Page No." and "Index No." shown in the chart below refer to the Service and Parts Supplement (Part No. 99462-95) that was recently distributed by our Technical Communications Department.

Part Number	Part Description	Page No.	Index No.	Pkg. Qty.	Sugg. Ord. Qty.	Dealer Net @	Extended Dealer Net	Suggested Retail @
