PAB1067: SCREAMIN' EAGLE SMART TUNE PRO RELEASED FOR SHIPMENT

Purpose

To notify dealers that the Smart Tune PRO – Automatic Tuning Module is 50-state U.S. EPA approved and released for shipment.

Summary and Parts Affected

Screamin' Eagle Smart Tune PRO-Automatic Tuning Module Part No. 41000445

The Smart Tune PRO Automatic Tuning Module has received CARB (California Air Resource Board) approval which is recognized as a 50-state U.S. EPA approval and enables shipment to the North American regions.

Certification for use on 2017-later XL is delayed. Once certification is received, these models will be incorporated into the Pro Street Tuner software. Harley-Davidson is working closely with CARB to expedite the approval process.

Review the installation instructions with your staff to ensure understanding of the exhaust modification required to install the wideband oxygen sensors (varies by model). The latest installation instructions can be found on H-D.com under the following web address:
