

TRANSMISSION OIL - MODELS M-50,M-50S

Harley-Davidson 2-cycle oil is now being specified for use in the M-50 and M-50S transmission for all outside temperature conditions.

This is the same oil that is specified for the gas and oil mixture.

Formerly Harley-Davidson 75 Medium Heavy oil was specified for temperatures 32° F and above and 58 special light for 32° F and below.

Service literature will be changed to agree with new specifications when reprinted.
