

**ENGINE SERIAL NUMBERING SYSTEM
1969 SPRINT, RAPIDO AND M MODELS**

Starting with the 1969 season, the model year designation is being omitted from the engine and frame serial numbers on Aermacchi Harley-Davidson models. The model letters only will be used as a prefix to the serial number. Numbers will run consecutively regardless of model year.

Examples of new and old serial numbers are as follows:

	<u>Example Old Serial No's.</u>	<u>Example New Serial No's.</u>
Sprint (SS)	68SS-2001, 68SS-4001	SS-1001, SS-2000
Rapido (ML, MLS)	68ML-2001, 68ML-4001	MLS-1001, ML-2000
M-65 (M, MS)	68M-2001, 68M-4001	M-1001, MS-2000

NOTE: The new numbering system has been in effect since the start of the 1969 model season except for Rapido "MS" motorcycles, serial No's. 69MS-1000 to 69MS-1119, which were marked with the 1969 model year prefix through an error.

IMPORTANT: To aid in processing motorcycle registration cards, please add the model year "1969" in front of engine serial number when filling out the warranty registration card.
