

JIFFY STAND SUPPORT PLATE / 1974 FX, FXE

A support plate has been added to late 1974 FX/FXE-1200 models (starting with VIN 2C or 9D 38536 H4) to eliminate possible bending at the Jiffy Stand mount. The plate, part No. 50036-74, is assembled between the Jiffy Stand and the rectifier-regulator mounting bracket.

This plate should be installed under warranty, on early 1974 vehicles. Dealer's account will be credited the dealer net price of \$.33 for each part upon receipt of a properly completed warranty form at the factory.
