CRANKSHAFT BEARING RACE TOOL

A new CRANKSHAFT BEARING RACE PRESS TOOL, Part No. 94547-80, is now available through Kent-Moore Tool Division. The tool will simplify bearing race removal and installation.

See Figure 1. Two sizes of bearing drivers are furnished, so the tool may be used with either 1000cc or 1200/1340cc engines.

See Figure 2. To use tool place appropriate drivers into race, push handle through hole created by drivers and press race in or out of case.
