March 15, 1983

ENGINE VEHICLE IDENTIFICATION NUMBER LOCATION CHANGE

The location of the abbreviated vehicle identification number (VIN) on the 1340cc engines has been changed. The location of the VIN on the frame has not been changed.

See Figure 1. Prior to this change, the VIN was stamped into the upper front surface of the right crankcase.

Figure 1. Old Location of VIN

NOTE

Beginning with the crankcase numbers listed below, four stars have been stamped into the right crankcase half at the old VIN location.

1483-045-037 — Unpainted crankcases
1483-047-008 — Painted crankcases

See Figure 2. The VIN has been relocated to the left crankcase below the front cylinder.

Figure 2. New Location of VIN

The starting VIN's for the new location are as follows:

MODEL	VIN	ENGINE VIN
FLT's	1HD1DAK14DY502150	DAKD502150
FXR's	1HD1EAK17DY116058	EAKD116058
FX's & FL's	1HD1BEK19DY013806	BEKD013806

NOTE

There will be a few motorcycles with VIN's after the above starting range stamped the old way (right hand location).
