CROSSOVER HOSE — 1985 FXEF-FXSB VEHICLES

The 3-1/2 gallon gasoline tanks on a number of FXSB and FXEF 1985 vehicles were shipped with a 4-3/4 inch crossover hose. The 4-3/4 inch crossover hose is insufficient in length to produce a loop with enough radius to prevent interference with the tachometer mounting bracket. This prevents proper final placement of the instrument console and produces a noticeable gap around the console base.

A complete list of the vehicles involved is attached for immediate identification. If you have sold or have on your floor, a vehicle or vehicles with any of the VIN numbers listed, it is important that the crossover hose on these vehicles be replaced with a 5-1/2 inch hose as soon as possible.

WARNING

Gasoline is extremely flammable and highly explosive under certain conditions. Do not smoke or allow open flame or sparks in the area when refueling or servicing the fuel system.

Drain the fuel tank to below the level of the crossover hose. The hose is readily accessible by removing the three console mounting screws, disconnecting the instrument/headlight pin connector and lifting the console free of the mounting brackets.

The hose is the standard 1/4 inch I.D. fuel line hose sold in bulk length. Cut the replacement hose to 5-1/2 inches in length. After replacement, submit a properly completed WARRANTY CLAIM FORM, using Job Code 6013 for .2 hours. The labor credit includes the cost of the hose and paper processing.
