## FLH VEHICLE TIRES

In addition to the recommended Dunlop K101A tires, another type of Dunlop tire can be used on 1977 - 1984 FLH vehicles.

Dunlop K291T tires have been tested and are approved as replacement tires on FLH vehicles.

However, they must be used only as a set. They cannot be mixed with other tires.

The combination is:

FRONT — K291T Sport Rib Front  
REAR — K291T Touring Elite Rear

### WARNING

Use K291T tires only as a set and only in the combination given above. Failure to replace tires on FLH vehicles in the combination given above or mixing K291T tires with other tires having different handling characteristics could lead to vehicle instability and possible personal injury.
