## 2006-07 FLTR/I WINDSHIELD SILKSCREEN REPAIR

### Purpose

Harley-Davidson Motor Company, Inc. has learned that inconsistencies in pad placement combined with irregularities in the fairing surface may result in damage to the silk-screen on windshields of certain 2006-07 FLTR/I model motorcycles.

To eliminate the need for windshield replacement, a repair kit (P/N 57651-07) has been developed to fix damaged silk-screens and reduce the likelihood of repeat damage.

### Motorcycles Affected

Certain 2006-07 FLTR/I model motorcycles built from April 4, 2005 through July 15, 2006. As many as 7,928 motorcycles may be affected.

### Required Dealer Action

1. Inspect the windshield of motorcycles in the affected population.
2. Do **not** replace the windshield if damage to the silk-screen is evident. Order the repair kit and use the materials and instructions provided. Each repair kit contains the following items:

### Silkscreen Repair Kit P/N 57651-07
