M1451: ACCESSORY FUEL CAP FITMENT

Purpose for Service Bulletin

Accessory fuel caps manufactured before model year 2018 should not be used on 2018 and later Softail® motorcycles. While these accessory fuel caps will physically fit the model year 2018 Softail models, they will not meet certain regulatory functional requirements. 2018 and later Softail models must use updated fuel caps which are identifiable by the gray colored threads. The updated fuel caps will retrofit on previous model year motorcycles.

Motorcycles Affected

Current cap(s) fitment is: Fits 1992 and later XL and Dyna® (except 2004 and later FXD, FXDX, 2005-2006 FXDC and 2007 FXDSE), 2000-2017 Softail® (except FXSTD, and 2007-2008 FXSTSSE), 1994 and later Road King® and 2015 and later Freewheeler® models.

The new cap(s) are required for: 2018 and later Softail®

New cap(s) retrofit to 1992 and later XL and Dyna® (except 2004 and later FXD, FXDX, 2005-2006 FXDC and 2007 FXDSE), 2000 and later Softail® (except FXSTD, and 2007-2008 FXSTSSE), 1994 and later Road King® and 2015 and later Freewheeler® models

Markets Affected

All markets are affected.

Harley-Davidson Motor Company Action

New part numbers have been created to differentiate old and new parts. New parts can visually be identified with grey threads. Current caps will have black threads.

Required Dealer Action

Dealers must ensure only the new version of fuel cap(s) are used on 2018 and later Softails. A customer should not transfer a current P&A accessory fuel cap to their 2018-later new vehicle as it could result in:

- Reduced coverage of certain warranty components
- Making the vehicle non-compliant with specific regional Emissions regulations
