Detachables Lock

Pages 143 and 750 of the 2004 Genuine Motor & Accessories Catalog incorrectly state the detachables locks, part numbers 46063-98 and 46106-00, fit **all** models. Do not install the detachables lock on a 2004 XL model with a detachable backrest. If installed and locked on an XL with a detachable backrest, the key can no longer be inserted into the lock so the backrest cannot be removed. Once locked, removal of hardware would be required to remove the backrest.

Please make a note in your catalogs and advise your parts department staff of this issue.
