

Advanced Audio System Software Update

The latest Advanced Audio System software (Version 8.9.0) is available on www.harley-davidson.com. There are also instructions on how to check, update and burn the software to a CD. You can find the information following this path: www.harley-davidson.com / Accessories & Apparel / Touring / Electrical & Lighting / Advanced Audio System / Advanced Audio AM/FM/CD Radio Kit / Advanced Audio System / Software Download.

The screenshot shows the Harley-Davidson website's 'GENUINE MOTOR ACCESSORIES' section. The navigation bar includes 'MOTORCYCLES', 'ACCESSORIES & APPAREL', 'EXPERIENCE', 'RIDERS', 'DEALERS', 'COMPANY', and 'DETOUR'. The left sidebar lists 'GENUINE MOTOR ACCESSORIES', 'MOTORCLOTHES® MERCHANDISE', and 'GIFT IDEAS'. The main content area is titled 'GENUINE MOTOR ACCESSORIES' and features a search bar and navigation tabs for 'SPORTSTER®', 'DYNA™', 'SOFTAIL®', 'VRSC™', and 'TOURING'. The breadcrumb trail reads 'Touring > Electrical & Lighting > Advanced Audio System'. The product title is 'Advanced Audio AM/FM/CD Radio Kit'. The description details the radio's features, including 6 AM and 10 FM presets, a CD player, and a 20-watt amplifier. The price is listed as 'MSRP US \$999.95'. A red circle highlights the 'ADVANCED AUDIO SYSTEM' section, which includes the text 'The finest traveling companion a rider could want.' and a small image of the radio unit. A red arrow points to this section from below the screenshot.

This is where the Advanced Audio System mini-site is located.

NOTE: The Kent-Moore CD is version 7.8.0 and this is version 8.9.0.
