

2007 Touring Instruments

At this time, there is an ongoing issue involving Cruise Control and/or ABS indicator lights which is being investigated concerning the list of Instruments shown below and their use on 2007 Touring Models. Until it is communicated that the issue is resolved, do not order these parts for use on 2007 Touring Models.

The issue should not effect 2004-2006 or 2008 Touring Models, or 2004-2008 non-Touring Models. Please order replacement parts for these years as is usual procedure.

If you have a need to replace one of these instruments, due to a functional defect, on a 2007 Touring Model that was originally equipped with one of these part numbers, please call Tech Service to have the part sent out. For speedometers, you will need mileage, for all orders you will need the VIN.

Due to staffing limitations, Tech Service will not be able to accommodate orders for parts installed as accessory upgrades or being replaced for cosmetic reasons. For these instances, you will need to wait until it is communicated that the issue is resolved and place an order for the parts.

5" Speedometers

67033-04B
67096-04B
67196-04B
67197-04B
67204-04B
67242-04B

Tachometer

67348-04D
67459-04C
67522-04B

Incidentally, the P&A fuel gauge 74113-04, shown on page 490 of the 2008 P&A Catalog, which is listed as fitting 2004-later Touring Models, should be revised to read fits 2004-2007 Electra Glide and Road Glide Models. Should you require a gauge for 2008 models, order part # 75113-08.
