

Inspection Cover and Gasket Change for XL

Starting May 5, 2008, All Sportster models received a new inspection cover and gasket as a running change. These new covers and gaskets do retro-fit back to 2004; however, the previous style -04 covers require the use of the previous style rubber gaskets, and the new style -08 covers must be installed with the new style foam gaskets. These parts can be identified visually (see figure above).

	NEW P/N	OLD P/N
Gasket Part Numbers		
gasket	34990-08	34986-04
Cover Part Numbers		
polished	34997-08	34993-04
