REV. 2-1-89

*Kit Number 28999-78*

## HIGH-PERFORMANCE MANIFOLD

This kit is designed for use with High Flow Carburetor and Air Cleaner Kits Part No.'s 91731-85A and 91731-88, stock replacement H-D carburetors or any carburetor with a stock replacement H-D bolt pattern. It is for 1981-1984 1340cc Shovelhead engines only.

This kit consists of the following parts:

QTY	DESCRIPTION
2	Hex cap screw
2	Washer
2	Hex lock nut
1	Manifold

### Installation

1. Remove carburetor. Refer to applicable Service Manual for detailed procedures.
2. If using this manifold with High Flow Carburetor and Air Cleaner Kit Part No. 91731-88, refer to Instruction Sheet Part No. 29022-88, Support Bracket/Adapter Kit (purchased separately).
3. If using this manifold with High Flow Carburetor and Air Cleaner Kit Part No. 91731-85A, refer to Instruction Sheet contained in that kit. You must use the hardware contained in this kit for securing the High Flow Carburetor to manifold.
4. If using the manifold with stock replacement H-D carburetors or any carburetor with a stock replacement H-D bolt pattern, refer to applicable Service Manual for detailed procedures.
