SMOOTH CHROME BILLET SHIFTER PEG KIT

General

This shifter peg kit is designed to fit all Harley-Davidson Motorcycles.

See Service Parts Illustration for kit contents.

Installation

1. Remove existing shifter peg from shifter arm by grasping with pliers and turning counter-clockwise. Discard shifter peg.
2. See Figure 1. Obtain screw from kit and install through shifter peg. Orient peg to desired angle and install peg to shifter arm. Tighten screw to 21 ft-lbs (29 Nm).

NOTE

When replacing rubber insert, either replace the screw (Item 3) or apply a small amount of LOCTITE 243 (Blue) to threads (of original) screw before installation.
