WARNING

The rider's safety depends upon the correct installation of this kit. Use the appropriate service manual procedures. If the procedure is not within your capabilities or you do not have the correct tools, have a Harley-Davidson dealer perform the installation. Improper installation of this kit could result in death or serious injury. (00333a)

NOTE

This instruction sheet references Service Manual information. A Service Manual for your model motorcycle is required for this installation and is available from a Harley-Davidson Dealer.

Kit Contents

See Figure 1 and Table 2.

INSTALLATION

1. Remove front wheel according to applicable Service Manual instructions.

NOTE

See Service Parts illustration. The hub cap gasket (3) is pre-installed to the hub cap. Shown separately for service clarity.

2. See Service Parts illustration. Install hub cap plate (1), and pan head torx screws (2) from kit. Tighten screws to 16-24 ft-lbs (22-33 Nm).
3. Reinstall front wheel according to applicable Service Manual instructions.

SERVICE PARTS

See Figure 1 and Table 2.
